## EXPERIENCE

### IGT Solutions, Pune Maharashtra — Java Developer

Sep 2022 - **PRESENT**

#### Responsibilities:

- Developed and implemented Java-based applications according to client requirements using Spring Boot, Hibernate/JPA.
- Debug and resolve technical issues in existing software applications, Write clean, maintainable code following best practices and coding standards.
- Implemented RESTful APIs using Spring Boot to facilitate communication between the front-end UI and backend systems. Managed incoming requests efficiently to ensure seamless data exchange and optimal user experience.
- Experience with version control systems (Git).
- Integrated with GenAI API to perform AI-based analysis on ticket content, identifying categories, subcategories, and customer fields..
- Proficient in Java programming language and related frameworks (Struts, Spring, Spring Boot, Hibernate, JPA)
- Implemented RESTful APIs using Spring Boot to handle requests for retrieving usage statistics of selected projects. Developed a tool using Spring Boot for the backend, Angular for the frontend, and JPA for database interaction.
- Developed real-time communication features using WebSocket connections to enable seamless data exchange between client and server.
- Contributed to develop a mail processing and ticket assignment system that automatically generates and assigns Passenger Name Records (PNRs) to agents based on skill matching.

## SKILLS

### Java Development:

- JSP (JavaServer Pages)
- Java Servlets
- Spring Framework
- Spring Boot
- Hibernate/JPA
- Struts
- Spring Data JPA

### RPA (Robotic Process Automation):

- UiPath
- Automation Anywhere

### Programming Languages:

- C
- C++
- Java

### Databases:

- SQL
- MySQL

### Tools:

- Eclipse
- IntelliJ
- Visual Studio Code
- SQL Developer
- Dbeaver

## **IGT Solutions, Pune Maharashtra — RPA Developer**

**APRIL 2022 - August 2022**
